

The renowned EPI 7-day Training. Go beyond old-school bodyguards. Become a pro in protection.

Train with some of the most experienced, most honorable pros in the business.

Knowing what to do. Knowing when to do it. When your job is to protect, what you know makes all the difference.

Before 1978, there were simple bodyguards. Then EPI developed executive protection training. We've been perfecting it ever since. With the latest methods, technologies, and best instructors to give you an edge in this ever-changing field.

Providing Executive Protection

This course is 100 plus hours. 7 days of intensive training. It's taught by more than 15 subject matter experts. Our faculty members are not just field agents but professional adult education specialists. Exceptional subject matter experts contribute in-depth presentations on their specialties. All in one place.

The first credential-ready training.

Upon successful completion of this course you will become a certified Personal Protection Specialist (PPS). This professional title is recognized worldwide and is very useful in substantiating your training and professional status.

A lifetime of professional benefits.

Graduates are eligible to become Nine Lives Associates, the most prestigious affiliation in the protection field. Our alumni association is active and always available. Nationwide networking events.

Tuition of \$3990 includes:

- All course materials and lodging for 6 nights
- VA DCJS Application Processing

Financing available. No Payments and no Interest if paid in full in 6 months. Approval in seconds. Other options available.

WE PUT THE PRO IN PROTECTION

DEFENSIVE TACTICS FOR EXECUTIVE PROTECTION (DT4EP)

Presented by
Sifu Alan Baker

Alan Baker is an internationally martial arts and self-defense expert. Alan has over 40 years of continuous experience in the arts and has been providing instruction since 1990.

Over the course of his career, he has attained the level of black belt or higher in multiple disciplines of martial arts as well as multiple instructor level certifications in additional systems under some of the industry's most renowned leaders such as Dan Inosanto, Pedro Sauer, Francis Fong, Erik Paulson, Leo T. Gaje Jr., Justo Dieguez Serrano, Andy Norman, James Cravens and Paul Vunak.

Alan is proficient in Gracie Brazilian Jiu Jitsu, Thai Boxing, Filipino Kali, Keysi Fighting Method, Burmese Bando, Kodokan Judo, Combat Submission Wrestling and Wing Chun Kung Fu just to name a few.

Sifu Baker is the founder and chief instructor of the Atlanta Martial Arts Center in Atlanta, GA, and the creator of the Warriors Path Training Method.

EPI's Protection Response Tactics (PRT) includes techniques from a variety of striking and grappling arts that will be beneficial to both the skilled operator and the novice.

All countermeasures employed by professional bodyguards should reduce the risk to those they protect. The executive protection agent seeks to reduce the risk to the client by avoiding confrontation. If faced with confrontation, the professional bodyguard would prefer to evacuate the client.

Sometimes, avoidance does not work, sometimes evacuation is not the answer, and sometimes the appropriate countermeasure is the reasonable application of physical force. This system provides the tools necessary for that reasoned response.

PRT offers appropriate solutions to all levels of risk.

MODULE 1: This module brings basic tools and mechanics needed to defend and protect a client from low level threat up to more aggressive threat.

MODULE 2: This module will introduce you to PRT's Assault Tactics methods. You will get into more advanced levels of ground fighting when forced to the ground and is being held, as well as environment around a vehicle and the various problems you may encounter as you move your principle in and out of the car.

MODULE 3: This module begins introducing the firearm into the previous material learned. you start to recognize and ingrain the needed reactions and techniques to respond to it. It also covers the principals involved with firearm disarming.

MODULE 4: In Module Four we review Counter Grappling and Ground Fighting – The protection agent does not want to get tied up in a grappling match on the ground when they are supposed to be protecting the client. The PRT counter grappling and ground fighting program will give you the skills to not only avoid getting pulled into a grappling match, but you will also learn to dish out enough destructive force to make the threat regret the attempt.

MODULE 5: At this level, PRT introduces weapons into the training to prepare you for the possibility of a threat implementing a weapon system. In this module you begin training PRT's Firearm Disarming and Weapon Retention.

Protectors Pistol Course

**Find your “inner accuracy”
and shoot precision shots every time.**

Protectors Pistol Course (PPC):
The ultimate basic and advanced handgun program available to the public pertaining to any personal protection specialist, public or private.

EPI utilizes a unique approach using an innovative method focusing on shooting precision (one hole group) bringing you into the mental process of shooting accurately and working on speed. When you are shooting, your unconscious mind is your best friend. It's where your skills level resides and so does the secret to consistently shooting with precision.

This program meets and exceeds the Personal Protection Specialist Basic and Advanced Handgun Course (07E and 09E) required by Virginia Department of Criminal Justice Services (DCJS) to perform as an Armed Personal Protection Specialist with a concealed handgun permit in the Commonwealth of Virginia.

Program tuition includes: Classroom instruction, hands-on shooting and instruction on a live-fire range, special program notebook and certificates issued by the Executive Protection Institute. Lodging and ammunition are not included.

Topics Include:

- The Fundamentals of Handguns
- Safety/Proper Operation/Ammunition
- Proper Maintenance and Storage
- Shooting Techniques/Multiple Target Engagement
- Shooting From Various Positions
- Reactions to Attacks: Foot Movement
- Concealed Carry Proper Draw and Fire Skills
- Holsters, Weapons and Equipment Choices
- Reduced Light Operations
- Shooting Scenarios: Evacuation and Formation Drills and Exercises
- Walking and Protective Shooting Style and Techniques

Driving + Protection + Etiquette.

The only driver
training that
blends all three.

We put decades of
experience into
this 3-day course.

Take it and become a
true Protection Driver.

This comprehensive 3-day course is the first to truly join together the disciplines of protection and security driving.

This revolutionary approach will give you a solid foundation of the hard and soft skills necessary for proficient protection driving.

Our Approach:

The Pilot

The focus is on developing the key skills essential for safe vehicle operation. There will be clear explanations of vehicle physics, driver capabilities and environmental challenges to better understand and manage behind the wheel emergencies.

The Professional Driver

This module contains a series of reality-based exercises proven to elevate driver confidence and enhance driving capabilities.

EP Behind the Wheel

Most evasive/defensive driving programs found in driving schools, security courses and law enforcement academies spend more than 98% of their training focused on preparing for events that may occur less than 2% of the time. Little or no attention is paid to the daily challenges encountered by driving professionals. By contrast, EPI puts a substantial focus on soft skills. EP Behind the Wheel is client-focused, addressing the reality of normal vehicle operation with a concierge-level of driving.
