

VIP Protection Course

Learn how Personal Protection Specialists and professional bodyguards manage VIP security operations.

This course provides immediately actionable skill sets and tactics born from intelligence driven protective methodologies used by the most respected personal protectors on the globe. Tactics and methodologies have been tested successfully in a variety of settings. This program was not designed to be what is new or what is next, it was designed to provide you with what works.

Knowing *What* to do. Knowing *When* to do it. When your job is to protect a client, what you know makes all the difference.

Learn how executive protection specialists manage VIP's security in several environments, from corporate to university campus application. The Executive Protection Institute has gone far beyond the old-fashioned methods of bodyguard schools to create the training that fits to you.

Topics include:

- Security Concepts in Dignitary Protection
- Intelligence driven protection methodology
- Risk assessment construction
- Countermeasure applications
- Surveillance Detection / Adversary perspective
- Advance work and route planning
- Protection detail design and management
- Coordination with existing security efforts
- How to Become a Bodyguard
